

Directions: Take three capsules in the evening on an empty stomach or as directed by your healthcare physician.

Osteo Absorb is an all-natural strontium citrate supplement that is clinically proven to increase bone mineral density when combined with the plant calcium, minerals and bone supporting nutrients found in our Advanced Bone Building Formula, OsteoSure VG.* Strontium, a trace mineral found in seawater and soil, is a mineral with similar properties to calcium. Research has shown that strontium may play a role in the formation of osteoblasts, new bone forming cells, while at the same time slowing the breakdown of old bone by inhibiting osteoclasts.*

We have included in this formula the latest in advanced absorption technology, a proprietary blend of AstraGin™ and BioPerine® for maximum effectiveness.*
