DIRECTIONS: Take 1 tablet 30 minutes before breakfast and 1 tablet 30 minutes before dinner, or as directed by your healthcare practitioner.

Optimum ALA is a whole-body, multifunctional antioxidant that helps to maintain healthy, well-functioning cells. Optimum ALA is designed to neutralize free radicals. Optimum ALA has the ability to destroy free radicals in both the water-based and lipid-based portion of cells, making it the ideal whole-body antioxidant. In addition, Optimum ALA helps the body synthesize glutathione, the body's own master detoxifier. Optimum ALA also "recharges" other important antioxidants, such as vitamins C and E, and CoQ10, giving them the ability to continue fighting free radicals for extended periods of time. Unlike regular alpha-lipoic acid, Optimum ALA's patented, controlled-release formulation provides extended protection. In addition, biotin supports the function of alpha-lipoic acid in regulating glucose metabolism.*
